KEY TERM

Distance language teaching

Language teaching done remotely using the Internet

WHAT CAN I LEARN FROM THIS SECONDARY RESEARCH?

What technologies are most frequently used in Distance Language Teaching

WHAT EVIDENCE IS SUMMARISED?

197 studies

MOOCs

Learning Management System

Social networking

Virtual reality

Video recording

Mind mapping

Creation of digital content

Audio & video-conferencing

Audio recording & podcasting

- Every technological tool serves a purpose, and English teachers should develop their knowledge about each tool to utilise the selected tool effectively.
- While choosing the technology for Distance Language Teaching, teachers need to consider learners' digital literacy.
- Language teaching can be more creative, authentic, multimodal, interactive, and mobile when technology is used appropriately and meaningfully.
